Grafted Fresh Market Tomato Field Day

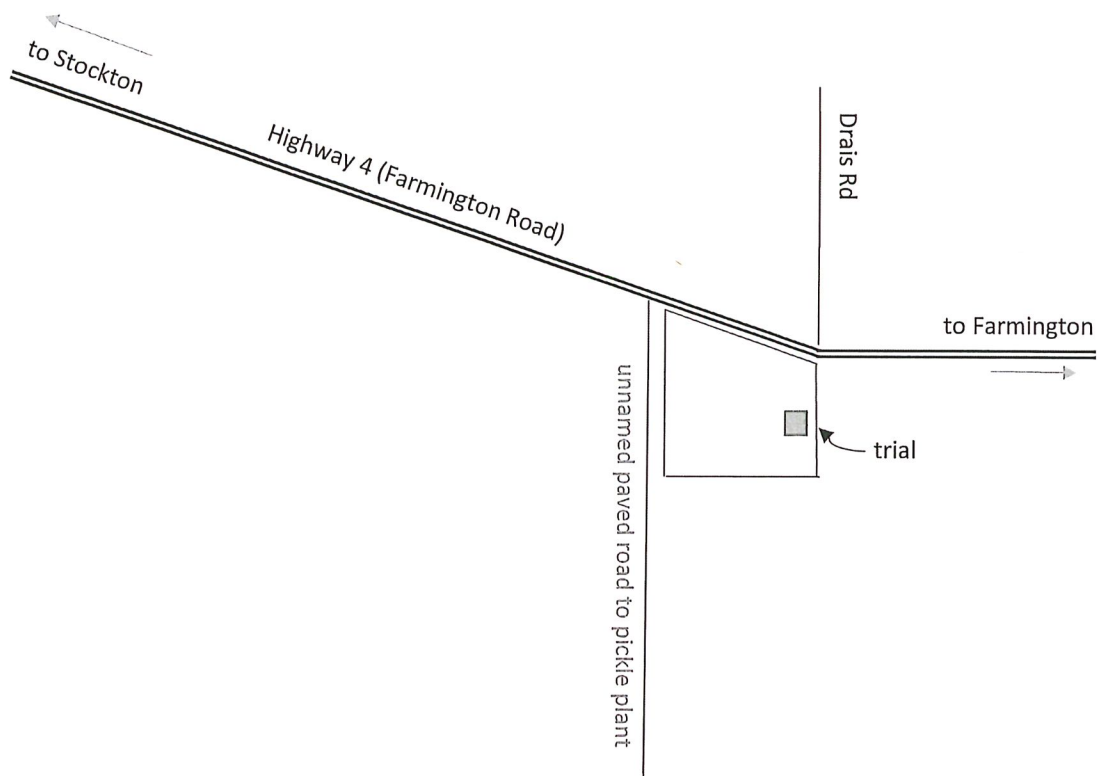

Farmington, CA

Friday, July 27th, 2018

9am to noon, come and go as you wish
This event is free and open to the public

Boxed lunches. Please RSVP to Brenna (bjaegeter@ucanr.edu) by July 24th

This field trial, generously hosted by Tony Chiappe and Michael Carr, Pacific Triple E, will be open for viewing during an informal field day. The trial includes replicated plots of the following: QualiT-27, QualiT-47, QualiT-99 and HM 1794 grafted onto the rootstocks Maxifort, DR0138TX, Arnold, Estamino and Guardior. A second trial location in Le Grand can be viewed by contacting Scott Stoddard (csstoddard@ucanr.edu).

Turn in to the field on the east edge (if you are coming from the west, this turn will be on your right before you reach Drais Rd.)
