2006 SAN JOAQUIN COUNTY UC COOPERATIVE EXTENSION MID-MATURITY PROCESSING TOMATO VARIETY TRIAL FIELD DAY

MONDAY OCTOBER 9, 2006 10 AM—12 PM

This year's mid-maturity variety trial includes 16 replicated varieties and an additional 5 varieties in single plots. The trial was established by transplanting on May 24th and was furrow-irrigated. Cooperators are Hal and Keith Robertson (K & H Farms) of Tracy.

The July heat wave resulted in a split fruit set which has delayed the harvest date from what was expected. However, the crop looks good and there are visible differences between the varieties. Come take a look!

To reach the field, exit I-5 at Highway 33 (S. Ahern Road). Head NW on 33 and take the next right on Linne Road. Follow Linne over I-5 and the field will be the first tomato field on your right as you descend down the overpass. Look for a UCCE sign and turn right at the dirt road on the east side of the field and head to the SE corner of the field where the trial is located.

Hope to see you there!
